* POLICY NAME:	Network and Computer Use Policy
* POLICY TYPE:	Presidential Policy - University Administrative Policy
POLICY #:	E.4.4.
*STATUS:	Active
*CONTACT OFFICE:	Information Technologies
*OVERSIGHT EXECUTIVE:	Chief Information Officer
*APPLIES TO:	All Faculty, Staff, and Students
*PURPOSE:	The UMW computer network consists of an institution-wide backbone, local area network, and many shared computers, as well as individual desktop computers and other computing devices. The various systems administrators work to ensure that network privileges are properly maintained for all University users. Users also must meet certain responsibilities and are subject to certain limitations, many of which are listed below.
DEFINITIONS:	
*POLICY STATEMENT:	<p>Users of information technology resources at the University of Mary Washington must use them responsibly and within limitations. Users who fail to meet their responsibilities or who fail to operate within the limitations may have their network privileges suspended or revoked and may be subject to other disciplinary actions. Using University-owned computers, networks, or other information technology resources constitutes acknowledgment that the user understands and commits to compliance with the University's Network and Computer Use Policy and related policies and procedures.</p> <p>PRIORITIES OF THE NETWORK</p> <p>The UMW computer network and other information technology resources should be used, and will be maintained and administered, in accordance with the following priorities:</p> <ul style="list-style-type: none"> • Highest and Primary: To support the education, research, and administrative purposes of the University of Mary Washington. • Medium and Secondary: To support other uses indirectly related to the University of Mary Washington's purposes with education or research benefits, including personal communications.

DISCLAIMER

The University of Mary Washington will investigate credible allegations of violations of the rules set forth below and will impose appropriate sanctions. However, the University assumes no responsibility for user conduct. Investigations of violations will follow the IT Security Incident Response Plan.

Users should be aware that there are many services on the Internet that they might find offensive or that involve risks. Users must accept responsibility for their own navigation of the Internet.

PRIVACY

The UMW computer network is owned and operated by the University of Mary Washington, an agency of the Commonwealth of Virginia. Faculty and staff must recognize that computer-generated documents (e.g., old e-mail) may be "public records," subject to provisions of Virginia's Freedom of Information statutes. Furthermore, all users must understand that electronic communications may not be secure and that during the course of ordinary management of information technology services, technical staff may inadvertently be exposed to the content of user files.

In specific and unusual circumstances, the content of user files may be examined under the direction of a system administrator of the system holding those files. This may be done only at the direction of the University President.

SAFETY

While unwanted or unsolicited contact cannot be controlled on the network, network users who receive threatening communications in violation of this policy or state or federal law should bring them to the attention of the Department of Information Technologies and/or the University Police.

INTELLECTUAL FREEDOM

The network provides an open forum for the expression of ideas, including viewpoints that are strange, unorthodox, and unpopular. Opinions expressed there must be presented in a manner that is free of obscenity (as defined by [Code of Virginia](#) section 18.2-372), forgery, and other illegal forms of expression, which are not acceptable uses of the University's network and are in violation of University policy. In addition, expressions of opinion may not be represented as the views of the University of Mary Washington, and individual users are responsible and accountable for any material posted and transmitted on the network in violation of this or other University policies, or state or federal law.

USER RESPONSIBILITIES

Current employees (faculty and staff) and students, as well as employees who

	<p>have retired from service at the University, are eligible to have computing accounts. In addition, some other parties, such as scholarly partners of faculty and contractors employed at the University, may be granted computing accounts for limited terms with appropriate sponsorship. To enjoy the privileges of computer use and network access, each user of University information technologies is expected to meet certain responsibilities and honor certain limitations. If a user is found to have knowingly violated either of these principles, his or her network access may be suspended. Depending on the seriousness of the violation, the user may also be subject to other University disciplinary actions, and violations of federal or state laws will result in referral to the appropriate legal authorities.</p> <p>The following list of responsibilities applies to the use of all University-owned computers and of the University's networks; additional responsibilities may be associated with specific networks, information technology services, and computers at the University.</p> <ul style="list-style-type: none">• Users must operate within the appropriate federal or state laws and University policies and must not engage in any conduct that presents a risk to the operating integrity of the systems and their accessibility to other users.• Users must abide by the terms of all software licensing agreements and copyright laws. Users must not make copies of or make available on the network copyrighted material, unless permitted by a license.• Users must not use the network resources of the University to gain or attempt to gain unauthorized access to remote computers, networks, or systems.• Users shall not engage in any activity that alters wired or wireless network connections, access points, topology, or physical wiring of university owned resources.• The use of University computer resources and networks is for legitimate academic or administrative purposes.• Users may not use University-owned computers or networks to access, produce, or distribute pornography in violation of the law.• Users will not divulge confidential or highly sensitive data to which they have access concerning faculty, staff, or students without explicit authorization.• Any network traffic exiting the University is subject not only to provisions of this policy, but also to the acceptable use policies of any network through which or into which it flows.• Users should notify the Division of Information Technologies IT Help Desk (654-2255 or it-abuse@umw.edu) about violations of computer laws and policies, as well as about potential vulnerabilities in the security of its computer systems and networks.• Users are to respect the rights of other users, including their rights as set forth in other University policies for students, faculty, and staff; these rights include but are not limited to privacy, freedom from harassment, and freedom of expression.• Users may not place on any University-owned computer system any type of information or software that:<ul style="list-style-type: none">○ infringes upon the rights of another person.
--	---

	<ul style="list-style-type: none"> ○ gives unauthorized access to another computer account or system. ● Users may not misrepresent themselves or their data on the network. ● Users are responsible for the use of their accounts. No user may give anyone else access to his or her account, or use a UMW computer account assigned to another user. A user must not attempt to obtain a password for another user's computer account. ● Users are responsible for the security of their passwords and for regularly changing passwords in accord with good practice and with the rules of the system in which the password is used. Users are responsible for making sure no one else knows their passwords. A user who suspects someone knows his or her password should change the password immediately (or contact Division of Information Technologies (654-2255) if he or she needs assistance in changing the password). ● Users of personal computers are responsible for protecting their work by making regular backup copies of their work files and storing the copies in a safe location. They should set the frequency of backup based on their ability to recreate information added since the last backup. ● Users must not attempt to monitor other users' data communications, nor read, copy, change, or delete other users' files or software, without permission of the owner(s). ● Users must not attempt to circumvent data protection schemes and computer and network protections or exploit security loopholes. ● Users must not deliberately perform acts that are wasteful of computing or network resources or that unfairly monopolize resources to the exclusion of others. ● Users must not deliberately perform acts that will impair the operation of computing equipment, peripherals, other devices, or networks. This includes, but is not limited to, tampering with components of a local area network (LAN) or the high-speed backbone network, otherwise blocking communication lines, or interfering with the operational readiness of a computer. ● Users must not run or install on any of the computer systems of the University, or give to another user, a program that could result in the eventual damage to a file or computer system and/or the reproduction of itself. This includes, but is not limited to, the classes of programs known as computer malware, viruses, Trojan horses, and worms. ● Users may not use the University's computer systems or networks for solicitation of funds or for commercial purposes. This includes solicitations for charitable or community organizations. ● Users may not use the University's networks to distribute chain letters. ● Users must not illegally download or distribute, including via peer-to-peer file sharing, copyrighted material. <p>This policy and related material supplement the existing policies in the Student Handbooks, the Faculty and Adjunct Faculty Handbooks, the Administrative Faculty Handbook, and the Classified Employees Handbook. These cover such acts as theft of computer services (including copyrighted computer programs), theft or mutilation of UMW property such as computer equipment, and the unacknowledged or unauthorized appropriation of another's computer</p>
--	--

	<p>program, or the results of that program, in whole or in part, for a computer-related exercise or assignment. Ultimately, any and all network conduct or misconduct is subject to the same policies that govern conduct in other University venues, and it is regulated and dealt with as described in the handbooks cited above.</p> <p>VIOLATIONS</p> <p>Violations or suspected violations of the policies and principles enumerated above should be reported promptly to the Division of Information Technologies at 654-2255 or it-abuse@umw.edu, or to the appropriate University department.</p> <p>SANCTIONS</p> <p>Responses for violation of this policy may include, but are not necessarily limited to, the following:</p> <ul style="list-style-type: none">• Notification: alerting a user to what appears to be an inadvertent violation of this policy in order to educate the user to avoid subsequent violations.• Warning: alerting a user to the violation, with the understanding that any additional violation will result in a greater penalty.• Loss of computer and/or network privileges: limitation or removal of computer and/or network privileges, either permanently or for a specified period of time.• Restitution for damages: requiring reimbursement for the costs of repair or replacement of computer-related material, equipment, hardware, software, data and/or facilities. In addition, such reimbursement shall include, but not necessarily be limited to, the cost of additional time spent by University employees due to the violation. <p>Violators may be subject to criminal or civil penalties as they apply.</p> <p>The University considers any violation to be a serious offense in its efforts to preserve the privacy, data, and services of individuals and the University. In the case an investigation is begun related to policy and/or legal violations, the University's officials reserve the right to access, examine, intercept, monitor, and copy the files, network transmissions, and/or on-line sessions of any user. The University may choose to suspend a user's access to its resources in connection with investigation of (but not limited to) any of the following:</p> <ul style="list-style-type: none">• Violations or suspected violations of security and/or policies• Activities that may be contributing to poor computer performance• Computer malfunctions. <p>The University's Office of Human Resources (as well as appropriate UMW or external law enforcement agencies) may be notified of the violation and provided with information and materials relating to the investigation and/or</p>
--	---

	violation. In connection with investigations, files, data, or communications may be shared with the appropriate investigating officials. In general, the University will exercise discretion as far as is appropriate given the case.
PROCEDURES:	
* General Procedures for Implementation:	NETWORK ADMINISTRATION The Division of Information Technologies, working with the administrators of UMW computer systems and networks, has the responsibility to protect the rights of users, to enforce policies and procedures consistent with those rights, and to publicize those policies and procedures to their users. The department has the authority to control or refuse access to any user who violates these policies or threatens the rights of other users, and department officials will make reasonable efforts to notify users affected by decisions they have made. Questions or concerns regarding the use of the University's network, its computers, or other information technology facilities or services should be addressed to the Division of Information Technologies, 540-654-2255, or helpdesk@umw.edu .
* Process for Developing, Approving, and Amending Procedures:	As a result of the required annual review, the CIO or her/his designee will make appropriate changes to the policy and present them to the University President for approval. Additional amendments will be handled on a case by case basis at the discretion of the CIO.
* Publication and Communication:	The policy is on the UMW website and is covered in required annual security awareness training for all employees. Data Stewards and Data Security Contacts complete additional annual training. The policy is referenced in the Student Handbook.
* Compliance Monitoring and Reporting:	The policy is part of the Information Security Program and as such is audited annually by the Auditor of Public Accounts (APA). The ISO is responsible for promoting policy awareness and tracking compliance as part of the annual IT Security Awareness training.
